### TAIKO PROJECT Drums of Japan (with an American Twist!)

Fri, March 29 at 10am

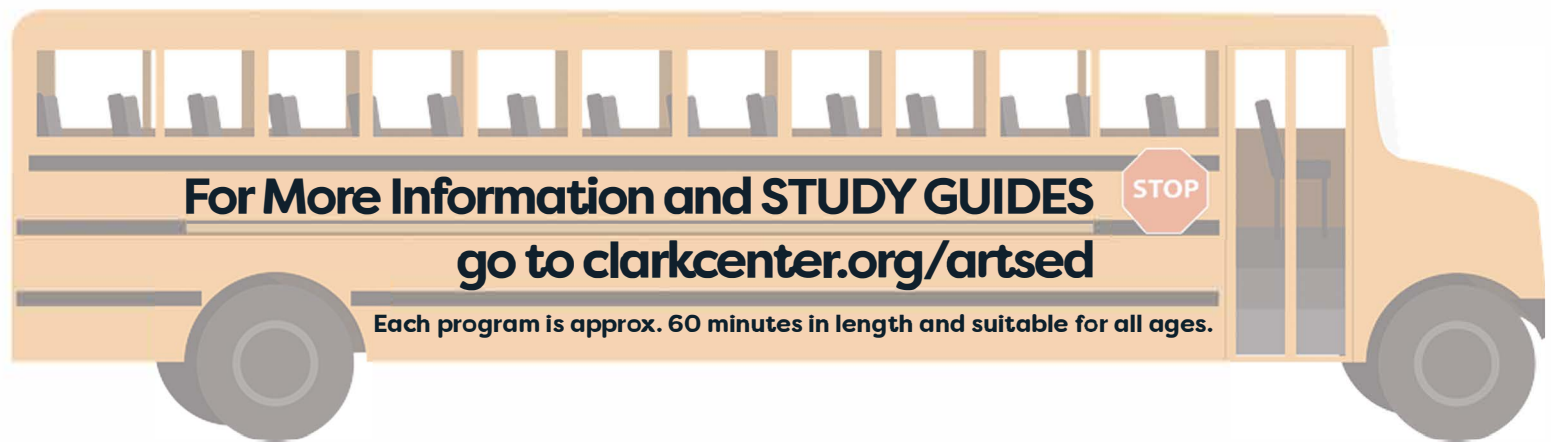

Join an intrepid explorer across uncharted territories to discover a prehistoric world of astonishing (and remarkably life-like) dinosaurs in this roarsome interactive show for the entire family. Meet a host of creatures, including every child's favorite flesh-eating giant, the Tyrannosaurus Rex.

Inspired by the power of wind and the ingenuity that goes into harnessing it, Zephyr is an emotive and exhilarating tale about the choices humans have made regarding our planet and its resources, told through circus acrobatics, mechanical wonders and a bit of clowning around.

The only American group to win the prestigious Tokyo International Taiko Contest, TaikoProject's music is rooted in the rich traditions of Japanese drumming, but expressed through the lens of its member's American experiences. Join us for this interactive & dynamic introduction to the music, history and art of Taiko.
